

# HALLOWEEN SAFETY

**Have fun. Stay visible. Think ahead.**

Halloween can be exciting for families, drivers, and coworkers—but distractions, low visibility, and unsafe decorations can quickly turn fun into injury. A few smart choices can help keep everyone safe.

## 5 WAYS TO STAY SAFE

### 1 BE SEEN AT NIGHT.

Wear reflective gear or carry a flashlight.

### 2 WATCH YOUR STEP.

Choose costumes and shoes that will not cause trips or falls.

### 3 DRIVE EXTRA CAREFULLY.

Slow down, stay alert, and watch for children and pedestrians.

### 4 DECORATE SAFELY.

Keep walkways, stairs, and exits clear. Avoid candles near decorations.

### 5 CHECK BEFORE YOU EAT.

Inspect treats and make sure food is safe for children and guests.

## AT WORK

Keep decorations out of walkways and away from exits.

Avoid masks or costumes that block vision or create tripping hazards.

Use battery-powered lights instead of open flames.

Report spills, loose cords, or trip hazards right away.

## ON THE ROAD & IN THE NEIGHBORHOOD

Slow down in neighborhoods and near events.

Cross at corners and use sidewalks when available.

Supervise young children.

Put phones away and stay alert.

## QUICK TIPS

- ✓ Bright costumes are safer.
- ✓ Flashlights help drivers see you.
- ✓ Pets may get stressed—keep them secure.
- ✓ Plan ahead for parties and celebrations.

## WE'RE ALL IN THIS TOGETHER.

Looking out for children, coworkers, and neighbors helps make Halloween safer for everyone.
